DYNAMIC AND RESULTS-DRIVEN
PROFESSIONAL

TO WHOM IT MAY CONCERN,

I'd love to share a bit about my journey and the diverse experiences that have shaped my skills and ambitions. Growing up, I lived across Europe—Greece, Italy, Turkey, Slovakia, and Russia—before moving to Croatia at 17. After a gap year in Chicago, I attended Boston College and later played professional basketball for two years.

Wanting to broaden my experience beyond sports, I explored various fields, including storage management, event coordination, moving services, and electrical installation. More recently, during my traineeship at the European Parliament, I gained firsthand insight into EU institutions, contributed to the 2024 EU elections campaign, managed meeting preparations, analyzed reports, and coordinated high-profile visits, including those of Ursula von der Leyen and Prime Minister Andrej Plenković.

Beyond politics, I've worked in hospitality management at Central Heritage Hotel and Azur Palace Luxury Rooms, focusing on brand development and operations. At Central Night Club, I handled high-profile guests requiring NDAs and worked closely with their advisors. These roles sharpened my ability to excel in fast-paced environments and collaborate with diverse teams.

Lately, I've been diving into AI systems and automation—working with n8n and Make.com to build workflows, integrating APIs, and exploring local LLM fine-tuning. It's a field I find incredibly exciting, full of potential for innovation.

I'm eager to bring my experience in management, coordination, and AI automation to your team. Looking forward to the opportunity to connect and discuss how I can contribute.

SINCERELY,

LUKA KRALJEVIĆ
